CP-593

Contents

	Page
Executive Summary	iii
Synthèse	iv
Theme/Thème	viii
Flight Vehicle Integration Panel	ix
Acknowledgements	x
	Reference
Technical Evaluation Report by R.A. Russell	T
Keynote Speach "A Small Country's Contribution for the Development of Aerospace Science, Technology and Production" by Admiral (Ret.) A. Cruz Júnior	K1
Keynote Address "Consolidation and the Future of Flight Test Facilities" by P. Sanders	K2
C-17A Avionics Flight Test Program by W.J. MacLean and A.L. Dublenko	1
SYTRAM (SYstème de TRajectographie Multimobile): Une nouvelle méthode de guidage des avions pour les essais multi-cibles by E. de Malleray	2
European Flight Experiments on 4-Dimensional Approach and Landing with the CASA 212 Aviocar Aircraft by J.R.C. Azinheira, A.A. Fonseca, C. Garcia Avello and S. Swierstra	3
AGM-130 Improved Modular Infrared Sensor (IMIRS) Flight Test by T.A. Corej and K.J. Kosan	4
Ensuring the GNSS Onboard Integrity Function Under Adverse Conditions: Feasibility and Flight Test Results by C. Butzmühlen	5
ALENIA Approach to EF2000 Propulsion System Flight Test: Methodology and Test Results by L. Bellero, F. Dogliatti and C. Girolami	6
Bon de Vol M 88-2 by E. Nicolet	7
Service Release and "Safety Critical" Software by K.S. Rodger	8

C-17 Enhancements to a Flight Test Planning Program 9
by C. Canody and M.D. Hewett

Reduction of Aircrew Workload Through the Use of INS/GPS While Employing Standoff Weapons 10
by E.W. Stolz and K.J. Kosan

Helicopter Certification - The Challenge of Testing UK Apache 11
by R.S. Finch

A Data Acquisition System for the RNLAF MLU F-16 Requirements and Proposal 12
by H.J. Koolstra, P.M.N. Hollestelle and J.M. Klijn

Balancing Modeling & Simulation with Flight Test in Military Aircraft Development 13
by W.J. Norton

Performance and Guidance System Testing using Differential GPS on a Falcon 20 Aircraft 14
by J.B. Croll

Precision Navigation and Synthetic Vision for Poor Visibility Guidance 15
by G. Sachs, K. Dobler, G. Schänzer and M. Dieroff

Validation of the Simultaneous Calibration of Aircraft Position Error and Airflow Angles Using a Differential GPS Technique on a Helicopter 16
by K. Hui and S. Baillie

Forebody Vortex Control 17
by L.A. Walchli and D.J. Moorhouse

The Development and Use of In-Flight Analysis at BAE Warton 18
by K.M. Nanson and R.B. Ramsay

Redefining Flight Testing: Innovative Application of the World Wide Web 19
by M.C. Hughes, L.S. Gardner and D.S. Painter

Essais en Vol de l'A300-600-ST "BELUGA" 20
by G. Destarac

The Certification Process of the Opher Smart Munition on the AMX Aircraft 21
by E. Petraroli and D. Israeli

Les essais en Vol du RAFALE 22
by P. Castagnos and M. Tourtoulon

The EH101 Development Programme 23
by M. Hazzard

TORNADO Integrated Avionics Research Aircraft (TIARA) 24
by A.D. Brown and A.J. Stocks

Investigations on Handling Qualities and Aerodynamic Characteristics of EUROFIGHTER 2000 at Daimler-Benz Aerospace Flight Test Centre 25
by H-C. Oelker and E.W. Muthsam

Flight Testing of Manual Flight Control Functions for a Small Transport Aircraft (Project ATTAS-SAFIR) 26
by T. Heintsch, R. Luckner and K-U. Hahn

Paper 27 cancelled

Paper 28 not available

Evaluation of High-Angle-of-Attack Handling Qualities for the X-31A Using Standard Evaluation Maneuvers 29
by P.C. Stoliker and J.T. Bosworth

X-31A Tactical Utility Flight Testing 30
by H. Friehmelt, Q. Kim and R. Gütter

Paper 31 cancelled

The European Fighter Aircraft EF2000 Flight Test Programme Overview and Management Concept 32
by M. Herr and P. Butcher

The V-22 Osprey Integrated Test Team
A Perspective on Organizational Development and Teaming 33
by G.M. VanderVliet and R.C. Price
