

Dedicated to innovation in aerospace

5th Gen Mission Planning: Integrated Systems and Algorithms

NATO MSG conference 2021 | Jeanine Vlasblom
&

Antoine de Reus, Roy Arents

This NLR document is prepared for presentation at the NATO MSG-184 Symposium “Towards Training and Decision Support for Complex Multi-Domain Operations” and should not be copied, distributed or reproduced in whole or in part, nor passed to any third party without prior written consent of NLR. Use, intentionally or unintentionally of any of the content, information, or services in this document in a manner contrary to the objective of this document is not allowed.

Situational awareness during the mission

Primary plan and contingency plans

Several planning components

Scheme of Manoeuvre Plan

Catch-22

New operational reality
& more available data

More time needed
(which is not available)

Data integration

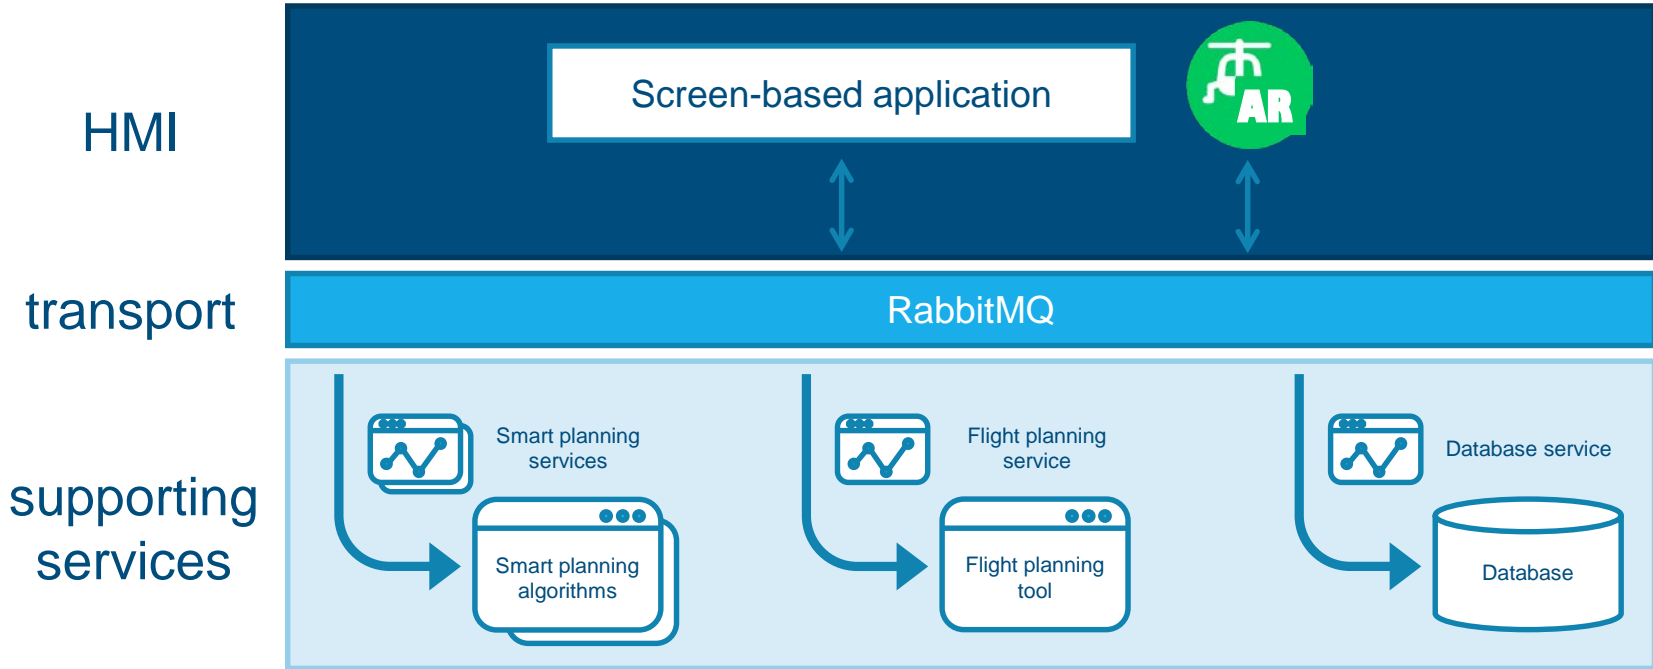

Plan suggestion

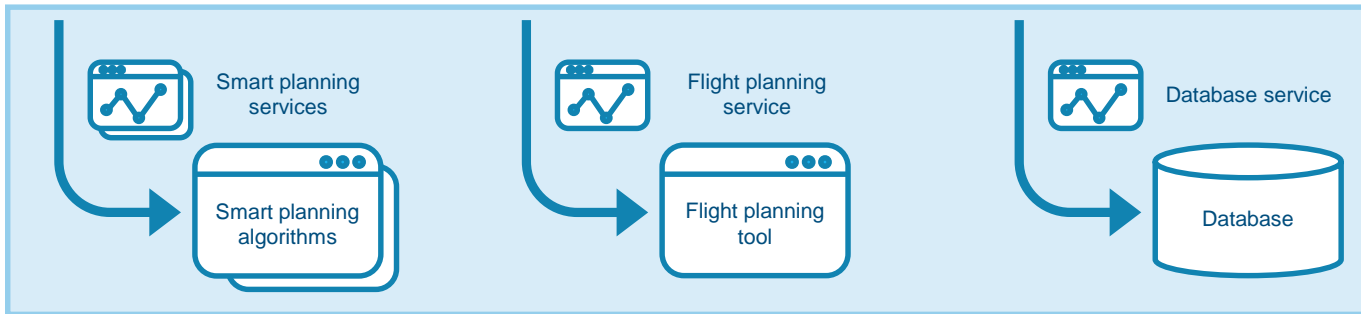

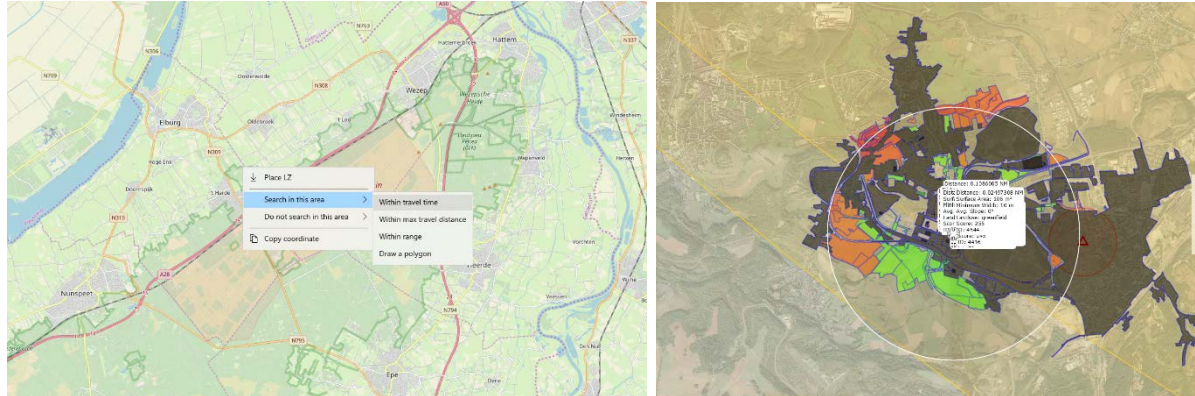

Facilitating collaboration

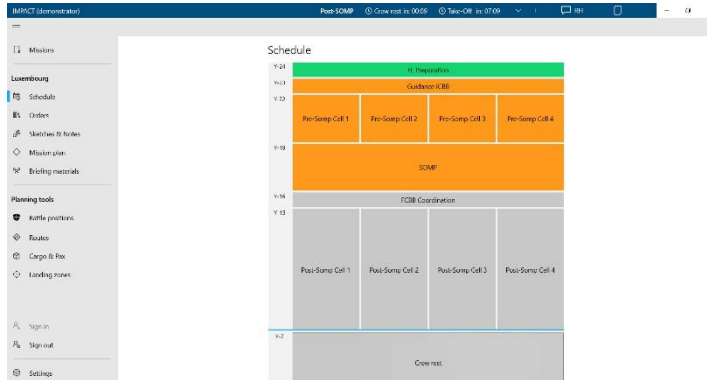

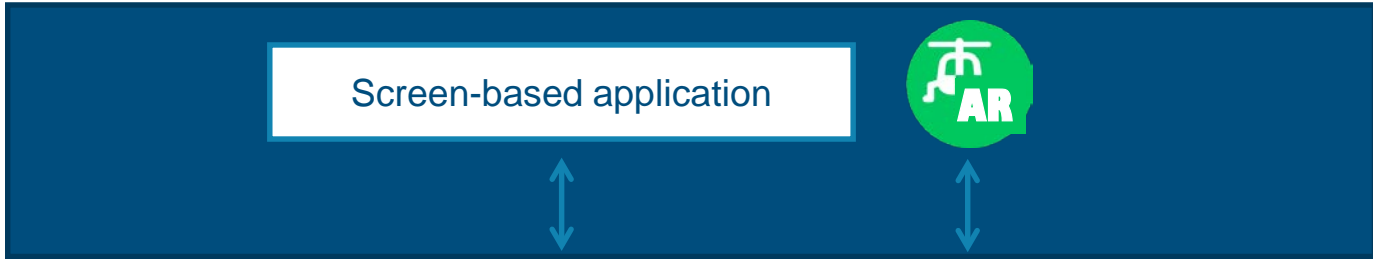

One integrated system

Supporting services

Human-Machine Interface

Collaboration

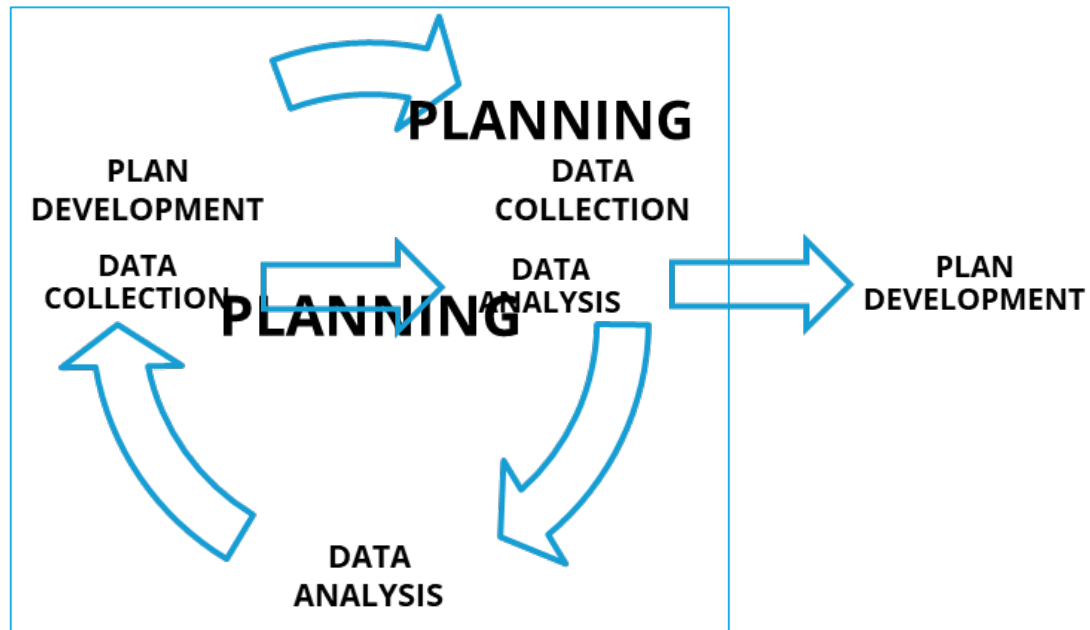

Rehearsal in VR

Virtual Cockpit
17.00

Outlook

Outlook

Better prepared for take-off

Dedicated to innovation in aerospace

Fully engaged
